

Food Defense Safety Training

Protect your food supply chain

CERTIFIED

Overview

Discover how to address food defense and safety from an auditor's perspective. MMTC-West's Food Defense Safety Training course is designed for Food Safety Managers and Risk Managers working to incorporate food defense and product security into their existing food safety programs.

The training course will define policies, procedures and programs found to be effective in minimizing risks of intentional food contamination.

Key Topics

- Building Awareness
- Plant Security Measures
- Ingredient Safety
- Utilities
- In-plant Hazardous Materials
- Tamper Evident Packaging
- Crisis Management
- Product Security
- Risk Assessment
- ... and other current trends.

Course Outline

- **Section 1** – Introduction to Food Defense: Historical perspective
- **Section 2** – Food Defense Elements: Awareness, Food Defense Review Team, Employees/Contractors/Visitors, Plant Security Measures, Ingredient Safety, Utilities, In-plant Hazardous Materials, Process Security, Warehouse and Transportation, Traceability, Tamper Evident Packaging, Crisis Management, Extortion, Internal Issues
